60 YEARS OF
GOOD DESIGN

About
ersa

Ersa, since its foundation was laid in 1958 by Metin Atabey Ata in a metal workshop in Sivas, has become one of Turkey's largest furniture manufacturer with its innovative and high-quality products and exportation to 41 countries across the world. While continuing its design and innovation-oriented growth every year, Ersa celebrates the 60th anniversary of its establishment with a product range developed for workspaces as well as living spaces.

Product

Ranking as one of the largest manufacturers within the sector with its 4,5 million square meters panel boards, 500.000 linear meters of laminated panels and 530.000 pieces of furniture production capacity at the 60,000 square meters production area in Ankara; Ersa adopts an environmentally friendly and innovative production approach both in the structural features of its factory and production facilities.

60+ International Design Awards

As Ersa adopts the principle of adding a value to the future, the firm has advanced, in this context by preserving and developing its design perspective, since the day it was founded. Reinforcing its innovative, modern and developer approach to design with more than 60 national and international awards, the company maintains this vision and improves it day by day through collaborations with numerous Turkish and international designers.

Operational Desk

Designer:

**Ece Yalim
Design Studio**

Frame operational desk series designed by Ece Yalim stands out as an innovative design with its functional and unique details. Combining both industrial and natural textures with its oval-shaped wooden table on its metal frame, Frame series consists of alternatives, different scales from Home Office models, that appeal to workspaces. All models of the series, which offer 2, 3, 4, and 6 people table systems as well as single-person models, have an internal cabling unit. The series also offers multifunctional additional solutions for users with lighting add-ons, shelf, caisson and shelving modules.

Magro

Operational Desk

Designer:

Ersa Studio

Magro operational table series reflects the dynamism of different materials by bringing metal and wood together in a single structure. The wooden coating workmanship applied as a whole to the table top and the table surface stands out as the most striking design detail of Magro. The metal layered leg design, located between two wooden panels, both appeals to the eye with its thinness and saves space in the used area. Single person desks and desk systems for 2,3,4 and 6 person in the series offer a regular desk usage with storage unit attachments such as caisson and shelving.

Yoka

Operational Desk

Designer:

Ersa Studio

Yoka operational desk series makes a difference with its design and material engineering for contemporary workspaces. The diagonally arranged elliptical legs, which distinguish the Yoka desk as a whole from standard work desks, are offered with metal or wood veneer alternatives applied with a special technique on metal. The table top, which is produced with a curved cut towards the bottom surface, visually displays a thin and light appearance, while guaranteeing durability with its material. The series, which has alternative model and size options ranging from single work desks to 2, 3, 4 and 6 person systems, promises regular and functional usage in work areas with its caisson, shelving and divider panel attachments.

Luta

Operational Desk

Designer:

Ersa Studio

Luta operational desk series represents an environmentally friendly production approach with minimum material usage. With its thin table top and triangular leg structure that offers a unique aesthetic appearance from every angle, Luta offers a minimal and functional usage that is free from excess details. Luta can be positioned in many places from operational work areas to open offices, from home-offices to executive units, thanks to the single-person desks and 2-, 3-, 4-, and 6-fold desk systems in the series. It is possible to create a more organized and functional working environment with multi-purpose storage add-ons such as caisson and shelving.
